I will take a look and send the client a letter. I should get back to you by early next week.

Subject: Proposed Examiner Amendment for 09/873364

The examiner who was handling 09/873364 left the office and I was given this case. I noticed he didn't cite any prior art so I did a new search; including some new subclasses. I can allow all the claims except for the last three, 43, 44 & 45. I propose that we cancel claims 43-45 in order to allow this 2 month amended case.
